PROFESSIONAL SUMMARY

Abhishek Tyagi here; I study engineering at **ABESIT College of Engineering** in Ghaziabad. As a student, I firmly believe in the ability of visual storytelling to produce powerful, layered pictures that, when combined, can tell a story. Whether I'm working on a project for a client or developing a personal idea, this is what I strive for in all of my work. I place a lot of emphasis on community and conservation in my skills. I've had the good fortune to see how grassroots, local initiatives can provide answers to some of the most pressing problems facing our globe as we learn more about how large-scale industrial activity and social factors impact the world we live in. I hope that my abilities highlight some of the remarkable people and organizations that are constantly striving to assist.

EDUCATION

Bachelor of Technology

ABESIT College of Engineering, India, Ghaziabad

2023 - Now
